

Elaine Bossé, M.A.

418.261.9437

UX designer

Professional bilingual (French & English, written and spoken)

elaine.bosse@gmail.com / www.elainebosse.com

Summary

With experience in Web projects management and interface development, I specialize in interaction design, information architecture and ergonomics. Analyzing complex systems and ideas, I create wireframes, mockups or fully functional interfaces, delivering a completed product that will answer your needs and those of your clients.

Dynamic, mindful and details-oriented, I work in perfect harmony with a team, whether multidisciplinary or specialized. Able to work with IT or Engineering teams, I understand technical challenges from a UX and UI point of view and I translate them to increase the awareness of my colleagues. I am always developing my analytical mind, strengthening my iteration process and contributing to better the UX and information technologies world.
